Triarco's Aminogen® Increases Plasma Amino Acid Levels Over 100%!

According to the results of Triarco's most recent Aminogen® clinical trial, it was proven that Aminogen® **increased plasma amino acid levels over 100%!** This study comprising of 41 males was designed to find out whether the presence of Triarco's patented ingredient Aminogen® makes a difference in the breakdown, absorption and utilization of whey protein...and does it ever. See for yourself—the results speak for themselves!

Look for Aminogen® on the labels of Optimum Nutrition's quality products, including Optimum's Pro Complex protein formula which contains an explosive 250 mg. of Aminogen® per dose!
